Call For Paper

For Joint Special Session: Disaster Resilience in Transport

The 11th EASTS Conference in Cebu, Philippines, September 11-14, 2015

Professor Cheng Min Feng, The President of EASTS

Professor Yoshi Hayashi, The President of WCTRS

Eastern Asia Society for Transportation Studies (EASTS) and World Conference on Transport Research Society (WCTRS) will jointly organize a Special Session entitled “Disaster Resilience in Transport” at the 11th EASTS Conference in Cebu, the Philippines on September 2015. The topic includes but are not limited to:

- Relationship between transport and land use for disaster resilience
- Process of disasters' influences on transport
- Transport planning considering disaster issue
- Transport policy to prevent or adapt disasters
- Transport network analysis and recovery in disasters
- Transport safety in natural disaster emergencies
- Cost and benefit analysis of resilient transport infrastructure and devices
- Micro mechanism of different abnormal weather's influence on transport
- Traffic flow characteristics in disasters
- Human travel, drive and response behavior in disasters
- Technology innovation in evaluation system of transport performance before, during and after disasters
- Technology innovation for resilient transport infrastructure and devices
- Intelligent transport system for disaster resilience
- Disaster resilience analysis using big data

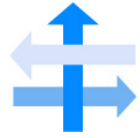

We welcome all of you to submit your papers actively to the following secretary. The submitted papers will not be reviewed as journals of EASTS. But The Special Interest Group (SIG) on “Disaster Resilience in Transport” of WCTRS is now planning to publish them in the different journal after the joint special session in cooperation with the International Scientific Committee (ISC) of EASTS. The other issues are the same as the call for paper of EASTS.

Important Dates: May 31, 2015 Deadline of submission of full papers

Official Language: English

Contact persons:

Chairs: Huapu Lu, Tsinghua University, China
E-mail: luhp@tsinghua.edu.cn
Akimasa Fujiwara, Hiroshima University, Japan
E-mail: afujiw@hiroshima-u.ac.jp

Co-chair: Ashish Verma, Indian Institute of Science Bangalore, India and TRG
E-mail: ashishv@civil.iisc.ernet.in
Secretary: Ruimin Li, Associate Professor, Tsinghua University
E-mail: lrmin@tsinghua.edu.cn, +86-13910610280

Supposed journals for special issue:

The chairs of the special session are supposing to edit a special issue in “Transport Policy” or “Case Studies on Transport Policy”, collecting presented papers there.

F.Y.R

The Special Interest Group (SIG) on “Disaster Resilience in Transport” of WCTRS serves as a forum facilitating discussion, communication and various activities related to transport system resilience in disasters. The primary objective of the SIG is to promote research about transport in disasters to improve transport system disaster prevention and mitigation ability via international workshops, group meetings etc.
