(3) Publication of Asian Transport Studies (ATS) Journal

"Asian Transport Studies (ATS)" is published in addition to the existing EASTS Journal. It aims at providing useful insights into solving Asia-specific transport-related issues from both theoretical and practical perspectives. It treats all types of transport modes and all issues in transport sector. Even though papers dealing with the Asia-specific issues are especially welcome, other papers related to transportation studies are also within the scope of this journal. Selected papers will be published in one of four issues over two years (Selection method refers to the Paper Selection above). Before publication, English editing services will be provided to each paper for free. EASTS is trying to promote the ATS journal as an internationally well-cited journal in near future. Details of ATS are shown at the following URL.
