(3) Publication of Asian Transport Studies (ATS)

“Asian Transport Studies (ATS)” is the top-level journal of EASTS, published in addition to the existing EASTS Journal. It aims at providing useful insights into solving Asia-specific transport-related issues from both theoretical and practical perspectives. It treats all types of transport modes and all issues in transport sector. Even though papers dealing with the Asia-specific issues are especially welcome, other papers related to transportation studies are also welcome. Selected papers will be published after the conference within the next year. Before publication, English editing services will be provided to each paper for free. In addition to the conference papers, from Volume 4, ATS will also accept paper submissions from general authors, which will be published in the 3rd and 4th Issues (special issues are also welcome). EASTS is trying to promote the ATS journal as an internationally well-cited journal in near future. Details of ATS are shown at the following URL:

<http://www.easts.info/publications/ats.html>.

(4) Conference CD-ROM, Proceedings and Journal Publications

Four types of publications will be issued: Conference CD-ROM, EASTS Proceedings

(Proceedings of the Eastern Asia Society for Transportation Studies), EASTS Journal (Journal of the Eastern Asia Society for Transportation Studies), and ATS (Asian Transport Studies). Conference CD-ROM contains all Reviewed Papers and Non-reviewed Papers qualified for presentation, conditional on an advanced registration to the Conference, and will be directly distributed to participants during the Conference. The other three publications will be issued after the Conference, only for those papers presented at the Conference.
