

The 20th Anniversary Symposium on EASTS-Japan

JICA's Cooperation to Strengthening Connectivity in Greater Mekong Subregion (GMS)

October 24, 2014

NAKAMURA Akira, Ph.D.

Infrastructure and Peacebuilding Dept.

Japan International Cooperation Agency (JICA)

What is JICA?

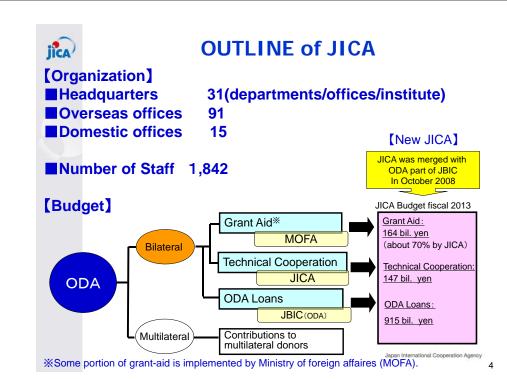

What is "JICA"?

Japan International Cooperation Agency

JICA is a governmental organization for implementing Japan's ODA(Official Development Assistannce).

Our Vision

Inclusive and Dynamic Development

Japan International Cooperation Agency

3

Feature of Japan's ODA

Support "Your Effort for Sustainability"

based on Japan's development experience since Meiji Restoration

Ownership

Strong leadership

and ownership by

Recipient countries

Growth Oriented

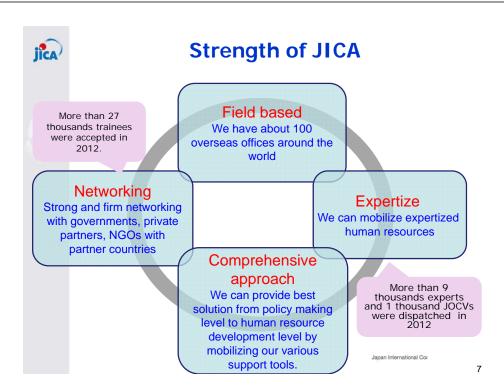

Infrastructure development and private sector development Capacity Development

New knowledge into recipient countries' system

Japan International Cooperation Agency

5

Jica Trend of ODA in Major Donor Countries Net Disbursement Base (Unit: million USD) 35,000 USA 30,000 UK 25,000 Germany 20,000 Japan 15,000 France 10,000 11,058 10,831 10,605 9,601 9.467 Canada 5.000 Italia Source: OECD DAC Notes)1. Excluding aid for Eastern Europe and graduate countries 2. Figures for 2013 are provisional. Japan International Cooperation Agency

JICA's contribution to Connect ASEAN

Japan International Cooperation Agency

JICA's Contribution to realize Smooth Connectivity among ASEAN countries

- 1. Sharing overall goal (Formulation of M/P)
- 2. Hard infrastructure development: missing link, bridges, paved road, etc.
- 3. Connectivity enhancement: port/airport and railway/road, ICD/SEZ etc.
- 4. Simplification of procedures at borders, Harmonized laws and regulations among countries
- 5. Economic Corridors Development: Promotion of Industries, tourism, Agro-business, etc.
- > These are expected to contribute to realizing smooth connectivity, narrowing development gaps, human resource development, etc.
- We also consider the development of "After Integration".

Japan International Cooperation Agency

IICA

Connectivity 1: - Maritime transport -

Three pillars of JICA's activities

- Port strategy/development
- ASEAN-RORO/Ferry network
- · Ensuring Maritime safety and security
- For realizing safe and reliable maritime transportation network among ASEAN and neighboring countries

Connectivity 2: - Mekong regional transport -

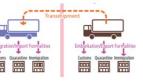

Three pillars of JICA's activities

- · Harmonizing hard infrastructure and soft infrastructure
- Coordinating among organizations, neighboring countries and donor agencies
- Collaborating with private sectors
- For realizing smooth connectivity among countries in GMS.

Strengthening Connectivity in Mekong

Japan International Cooperation Agency

Economic Growth of Mekong Region Countries

Lao's GDP/cap becomes more than 4 times in 2013 compared with those in 2003. Cambodia's GDP/cap becomes almost 3 times compared with those in 2003

Japanese FDI into **Mekong Region Countries**

Lao PDR: 38 Japanese companies in April 2011

52 Japanese companies in April 2012 (+14)

Cambodia: Japan's FDI in 2012 becomes US\$212 million

34 times compared with previous year

Movie on Southern Economic Corridor(SEC)

"Infrastructure for the people" video prepared by JICA

Two major bottlenecks exist on the corridor.

- 1. Border procedure
- 2. Crossing point of the Mekong river

Hard Infrastructure Development

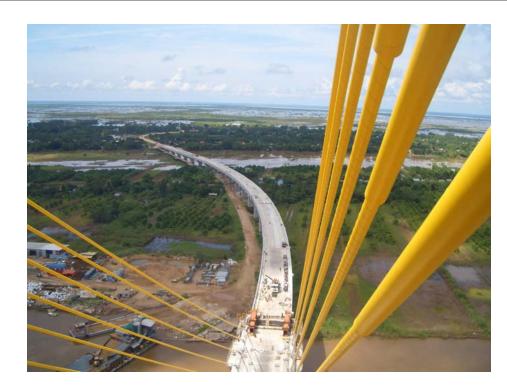

Soft Infrastructure Development

Myanmar and beyond ASEAN

jica China India **ASEAN**

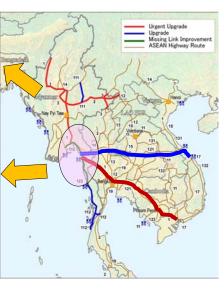

Importance of Myanmar

- O Bridge between ASEAN and
- O Plural corridors' origin / destination
- Δ Physical missing links to and from neighboring countries (Road, Railway)
- Δ Capacity restriction in existing facilities
- >>> JICA has started to implement Comprehensive approach to develop transport sector

Japan International Cooperation Agency

Next Step

- Myanmar becomes paid attention recently.
- ✓ Two main corridors are expected to connect Myanmar
- ✓ JICA is ready to support "Connectivity among ASEAN member countries"

Japan International Cooperation Agency

33

Contribution to Academic Field

Japan International Cooperation Agenc

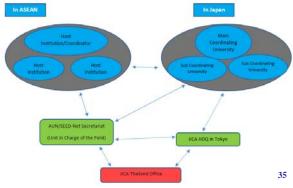

Contribution to Academic field

- ✓ AUN/SEED-Net (Autonomous sub-network of the ASEAN University Network) is being extended since 2001.
- ✓ It aimed at promoting HRD in Engineering in ASEAN countries.

Major field:

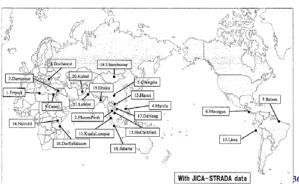

- ➤ Civil Eng.
- ➤ Chemical Eng.
- Energy Engineering
- ≽etc

Practical Database (PT survey)

- ✓ JICA has conducted more than 60 urban transport M/Ps around the world. (ex: Hanoi, Jakarta, Dhaka)
- ✓ JICA PT(person trip)-database contains 21 cities.
- ✓ It is available for academic use.

Key Words for better future development

- ✓ Sustainability
- ✓ Resilience
- ✓ Inclusiveness

Inclusive and Dynamic Development
